CFM Joins Forces with QDS to Give Financial Institutions Expanded Choice in Core-Integrated Cash Recyclers with Certification of CIMA 7016

Chandler, AZ – November 8th, 2016 – CFM, the [core-integration experts](#) known for their branch of the future enabling technology, today announces the certification of the CIMA 7016 cash recycler available through QDS. This certification adds to CFM’s ever-growing list of solutions for cash recyclers and dispensers, across all makes and models.

CIMA recyclers have proven to provide immediate results after installation and CFM’s certification of the CIMA 7016 accelerates the time the recycler can be installed and achieve full functionality. It also opens the door for clients looking for a solution that will drive the cost of transactions down and directly integrate with their core out of the gate with no major changes or additional installations.

The CIMA 7016 cash recycler is designed to guarantee high performances in counters with large quantities of transactions. With its compact footprint and high security level, it’s a smart choice for Financial Institutions moving toward open branch designs and Universal Associates.

Sean Farrell, CEO of Quality Data Systems, had this to say about the CIMA 7016 certification, “The CIMA recycler has empowered our credit union customers to automate cash handling so that their staff can focus on their true priority, their members, while dramatically improving efficiency throughout the branch. This integration certification will improve the installation and bring live process, and hasten the time to realizing the value of their recycler investment.”

About CFM

Innovations aren't innovative unless they solve a problem or need. For CFM, revolutionizing an industry started with the simple principal of helping financial institutions transform the banking experience through core integrated solutions. As the only zero-footprint solution in the industry, CFM drives the future of banking by connecting cash automation hardware to teller platforms, enabling Universal Associates, super-safe redundancy programs, robust analytics and self-service solutions. CFM is headquartered in Chandler, AZ and a strategic partner of DBSI (www.dbsi-inc.com), a branch transformation strategist. To learn more, visit www.whycfm.com or call (855) 333.4236.
